

Miscellaneous.

Farmers' Daughters.

The farmers' daughters are soon to be the life as well as the pride of the country. A glorious race of women, which no other land can show. I seek not to flatter them, for before they can become this, they must have to make earnest efforts of one or two kinds. There are some who improve their condition, and some who have false pride, but because they demand more consideration than they merit. A want of intelligence upon all subjects of the day, and of a general education, is a serious drawback in a country that is so full of life, and in which many books and newspapers are to be had.

Many girls are discouraged because they cannot be sent away from home to boarding schools, but men of the world would not have for wives women well and properly educated at home. And this education can be had, wherever the desire is not wanting. A taste for reading, good manners, and an earnest thirst for knowledge is certain to attain a sweet laugh, the "Fleur-de-lis" of the face. There are farmers' daughters in this very room in which I am writing, a beautiful, refined, and intelligent woman, in whose childhood books were not as plentiful as now, and who gained her fine education under difficulties which would have discouraged any but one who had as true a love for study.

The women in towns and cities are becoming so universally unhealthful, and so almost universally extravagant, foolish, and fashionable, that men are almost in despair of obtaining wives who are not invalids, and providing them with what they demand after they have married them. Unless the young man has the fortune (good or bad) to be the inheritor of wealth, he must spend the bloom of his youth in acquiring enough to "start upon," as people are expected to begin now-a-days. Men, even in high places, would go to the country for their choice. If they met their equal refinement and intelligence. Women are preparing to take a noble stand in history, and they cannot do it in ignorance.

Town girls have the advantages of more highly polished manners and greater accomplishments; but country girls have infinitely more to recommend them as rivals of their fair city sisters. They have more truth, household knowledge and economy, health (and consequently beauty), simplicity, affection, and freshness of nature and thought. When they have cultivated minds, there are more chances for their favor for good sense and real ability, because so much is not demanded of the frivolous society. The added lustre of foreign accomplishments could easily be taught by such a mind from a very little contact with the world.

I would not speak as though our farmers' daughters were deficient in education. Many brilliant scholars and talented women may be found among them—in New England this is especially so—but I would seek to awaken the ambition of all to become that admired and favored class which they ought to be, if they will but unite refined culture with their most excellent graces.

A sweet country home, with roses and honeysuckles trained to climb over it; with good taste, intelligence, and beauty within; all enough to insure health, and leisure enough to court acquaintance with books and flowers, and the loveliness of nature, with peace, plenty, and love, is surely one of the paradises which Heaven has left for the attainment of man.—Ohio Cultivator.

FULL PARTICULARS.

A good story is told of an old lady who had received a letter from her son, a sailor, on board a merchantman, which ran thus: "Have been driven into the Bay of Fundy by a tempestuous night in the teeth. It blowed great guns, and carried away the bowsprit, a heavy sea washed overboard the binnacle and compass; the captain lost his quadrant, and couldn't take any observation for fifteen days; at last we arrived at Halifax. The old woman who could not read her son's letter, to repeat it to her three or four times, until she thought she had got it by heart. She then called out to call the story.

"Oh, my poor son!"

"Oh, what a matter, mother? I hope no mischief."

"Oh thank God, he's safe! But he has been driven into the Bay of Fundy by a tempestuous night in the teeth. It blowed great guns, and they carried away the bowsprit; a heavy sea washed overboard the binnacle and compass; the captain lost his quadrant, and couldn't take any observation for fifteen days; at last they arrived safe at Halifax."

"La, bless us what a wonder they were to get home. Well, I wouldn't be a sailor."

A lady applied at the post office the other day in this city says the Bangor Journal, for some stamps. Being informed that they were three cents each, she asked if they could not be afforded cheaper. She was told that that was the price all through the States. She then asked if there was no cheaper kind. Yes, said the clerk, here are some blue ones, which are a cent apiece. She asked if they were just as good. The clerk said they were, only they would take some of them, and they did not look so well. Oh, well, said the lady, I never was so particular as some folks on looks, and I'll take some of the blue ones.

The "non-super carriers," is a modification, and used thus—

"Questionably discriminators of early

Cherry's Cougher in Ohio so tenderly treated that he always chloroform his head before he dies."

Funch says that the man who intends getting round his wife must start very early in the morning.

At one Mass. there is blind, and Hyman is the doctor that generally manages to open his eyes.

A Western cattle dealer who rarely had the privilege of sitting down to meat with a family, and had never been in a minister's house in his life, was not long ago beighted and lost in his ride across the prairie, and compelled to ask for lodgings at the first house he could find. Happily for him it proved to be the dwelling of a good man, a parson, who gave him a cordial welcome, and what was specially agreeable, told him that the parson was set to get down to supper. The traveler's appetite was ravenous, and the moment he was asked to sit by he complied; and without waiting for a second invitation, he laid hold on what he could reach.

"Stop, stop!" said the good man of the house, "we are in the habit of saying something here before we eat."

This hint to wait till blessing was asked, the rough customer did not understand, but with his mouth full he muttered:

"Go ahead, say what you like; you can't learn my stomach now!"

Puscara.—Do not confide in the young—new wood splits. Put no faith in the old—old pump leaks.

That physician dies an old man, who lives upon his own remedies and yet takes none.

Waiting for dead men's shoes is, in most measures, a bootless affair.

Ladies generally shop in couples. When a lady has any money to spend, she dearly loves taking a friend with her to see her spend it.

Bad words, like bad shillings are often brought home to the person who uttered them.

Life, we are told, is a journey—and to see the way in which some people eat, one would think they were taking in provisions to last them the whole journey.

A handsome young widow applied to a physician to relieve her of two distressing complaints with which she was afflicted.

"In the first place," said she, "I have little or no appetite. What shall I take for that?"

"For that, madam, you should take air and exercise."

"And, doctor, I'm quite sedentary at night and afraid to lie alone. What shall I take for that?"

"For that, madam, I can only recommend that you take a husband."

"I stand," said a Western stump orator, "on the broad platform of the principles of '98, and palsied be mine arm if I desert 'um!"

"You stand on nothing of the kind!" interrupted a little shoemaker in the crowd; "you stand in my boots, that you never paid me for, and I want the money."

A regimental chaplain, in preaching to his military auditors, spoke of the general's deluge.

"Who's he," whispered a soldier, nudging his comrade. "I thought I knew all the great commanders of Europe, but I never heard of General Deluge before."

A St. Louis paper says that the grasshopper have eat up the entire tobacco crop of Franklin county, and the last that was heard from them, they were seated on the corners of the fence, begging every man that passed for a chew!

Before the time of Pope Innocent III. (1198) there was no solemnization of marriage in the church, but the bridegroom came to the bride's house and led her home to his own, which was all the ceremony then used.

A FEMALE FURY.—A Mrs. Alber, of Saluda, Indiana, recently attacked some men who were making a fence, with a mattock, in a most terrific manner. The men only acted on the defensive. One seizing a mattock to prevent her doing any mischief, she attempted to kick him, when he caught her foot and she turned a somersault backwards, rendering the whole scene what might be called seriously comic. The men then fled, leaving the field to the fair assailant.

Those "PECKY HOOPS."—Some of the young gentlemen who were given to promiscuous with ladies, now wear a strip of steel, stuck in the outer seam of their pantaloons from the knee down. This prevents entirely the excoaration of the skin from the friction of the ladies' hoops. Without such protection, a walk of a mile or two, arm in arm, is sufficient to "establish a raw" on the masculine "limb."

Turning into "a Platform."—Ethan Spike, the humorous correspondent of the Portland (Me.) Transcript, herein lucidly explains how a fellow feels while he is becoming "a platform":

Feller Citizens—I not only mount the platform, but I'd ride to Joppa of the safety of the Constitution on the Union shall seem to us: I shall so kinder mix myself with this platform, that 'twill be hard to tell whether from which. Yes feller-citizens, yer lookin' yer last on the late Unspeakable Libby. I feel the plank going into my ribs, my iuders are hardenin', my legs are feelin' awfully flamberish, and my toes is turning into twenty-pennys an apiece. I shall be a platform, and my wife will be a wider—unless it is constitutional for such kind of furniture as I'm becomin' to keep wivins.

"Lampoons," said an exquisite, "can you enable me to realize from your culinary stores, the pleasure of a few delicate mushrooms, rendered innocuous by ingenious matrimony?"

A correspondent wants to know if a joke is good for anything after it is "smoked."

An eminent artist is about getting a "panorama of a law suit." It opens with the year one, and closes with doomsday.

There is no man so great as not to have some little more predominant than all his greatness.

DOCTOR HOOFLAND'S German Bitters.

DR. C. M. JACKSON, Philad'a. Pa.

WILL EFFECTUALLY CURE Liver complaint, Dyspepsia, Jaundice, Chronic or Nervous Disease, of the Kidneys, and all diseases arising from a disordered Liver or Stomach.

Such as Constipation, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Diarrhea, for food, Flatulency or weight in the stomach, Sour Eructations, Sinking or Fluttering at the pit of the Stomach, Swimming of the head, Harried and difficult breathing, Fluttering at the Heart, Choking or suffocating sensations when in a lying posture, Dimness of Vision, Dots or webs before the sight, Fever and

Dull pain in the Head, Stomach, or Bowels, Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, or Golden Rushes of heat, burning in the flesh, Constant imaginings of Evil, and great depression of Spirits.

The proprietor in calling the attention of the public to this medicine, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended. It is a new and untried article, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unrivaled by any similar preparations extant.

The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the American people, and a careful perusal of the Almanac, published annually by the proprietor, and to be had gratis of any of his Agents, cannot but satisfy the most skeptical that this remedy is really deserving the great celebrity it has obtained. Principal office and Manufactory, No. 96 Arch St., Philadelphia, Pa.

Indiana Testimony.

HUNTSVILLE, Sept. 20, 1854. Wm. N. Jones says: "I find it another specific for Bitters immediately. They sell rapidly, and give the most unbounded satisfaction in every case. I do not know of but one instance in which I have sold one bottle that the person did not return for more, and in that case, the one bottle cured the person."

GOSHEN, April 18, 1853. Dr. C. P. Jones says: "I have used several bottles of your German Bitters, myself and in my family, and find it the quickest and most effectual remedy for nervous diseases of any kind I have ever used in my practice or family. Myself and several members of my family are troubled with heart complaint, and it is the only medicine that has done us any relief, as it never fails. I have prescribed it with unflinching success in a number of cases."

DAKOTA, April 9, 1853. Jackson & Beck say: "We have sold all your German Bitters, and are daily increasing. Send another supply immediately."

CORTON, Feb. 19, 1853.—Dr. Clemons—Sir, please send me the other two bottles of Bitters German Bitters, very much obliged to you. Dr. C. M. Jackson, agreeably to our arrangement. I have received more benefit from what I have taken for the Liver and Kidney complaint, and all from any and all other medicines I have taken, put them all together.

Respectfully, &c. N. S. Reynolds. JACOB C. FAHNEY, Postmaster, North Salem, Hendricks county, writes:

"I take great pleasure in informing you that I have used your German Bitters for Dyspepsia, and have found great benefit from their use, and would like you to send me a lot for the benefit of my neighbors."

They are entirely reliable, containing no injurious ingredients or alcoholic stimulants, always strengthening and never prostrating the system.

Price 75c. per bottle. Sold by Druggists and Storekeepers, every where, and by mail to the United States and Canada.

Sold by PERRIN & THOMPSON, Plymouth, Mo. D. HUMPHREYS, Knox, Ind. May 29, 1853. 10y1.

H. M. PERSHING. E. A. THOMPSON.

NEW FIRM. Great Excitement.

PERSHING & THOMPSON, Wholesale Dealers in Drugs, Medicines and Groceries.

VARIETY is said to be the spice of Life, and this is all proper enough, if confined within proper limits, and used with discretion. The subscribers having recently associated themselves together as dealers in

Drugs & Medicines, Of all kinds, Paints, Oils, Dry-Stuffs, Glass and Glassware, Surgical Instruments, Patent and Electric Medicines, Brushes, Sash, Varnish, Stationery of all kinds, Toys, Books, Stationery, and a general assortment of

YANKEE NOTIONS, All of which will be sold at the lowest living prices for cash and approved produce.

Pershing & Thompson—sensible of the favors heretofore received at the hands of the citizens of

Marshall County, Tender their thanks for past favors, and solicit a continuance of their confidence. We are determined to make their interests our interests.

"We warrant all goods sold by us to be what we represent them."

Call at the old stand of H. B. Pershing. March 20, 1853. 52y1.

Wagons

For Sale. Enquire at the Brick Store. Feb. 21, 1853. 47y1.

MY RESPECTS.

WILL all those who are indebted to me please call and settle their little accounts, as I am purely oppressed on account of some bad bargains heretofore made with bad eggs. I am now trying to do business on my own hook, and want all the dimes I can get, if they are justly due me.

March 6, 1853—3w50. ROBERT RUSH.

DISSOLUTION.

THE partnership heretofore existing between Thos. Pryce of Laporte and N. H. Oglesbee, is this day dissolved by mutual consent. The notes and accounts of said firm are to be paid to N. H. Oglesbee, and all demands against it are to be paid by said Oglesbee.

THOS. PRYCE. N. H. OGLESBEE. Jan. 28, 1853.

Having disposed of my interest in the Brick Store establishment at Plymouth, to my late partner, N. H. Oglesbee, I earnestly hope the friends and patrons who have heretofore so liberally bestowed their favors, will continue to patronize me with the new firm.

THOS. PRYCE. Jan. 31, 1853. 46y1.

R. R. R. LIFE AND DEATH.

The mysteries of disease laid open to the people.

Health is the Principle of Life; Disease is the Principle of Death.

The R. R. R. Balm possesses the great power to secure to the human system Health and long life, and to free the human family from pains, aches, and all bodily infirmities. The art of preserving health and the method of curing diseases by R. R. R. Balm.

Radway's Ready Relief is to be used in all cases where there is pain. The moment it is applied externally, it takes instant effect, it will relieve the most torturing aches, pains, cramps, spasms, burns, scalds, &c., and quicker than any other medicine, it will relieve the most distressing cases of Rheumatism, Gout, and Neuralgia, and all other diseases of the system, the pain again breaks out, and the patient is again in the power of the disease. Radway's Ready Relief stops the pain and removes the cause of the disease that occasions it. It infuses new life into the weak and diseased parts. It braces up the system, and it builds up the body by the action of health and strength in place of pain, weakness and disease.

As a counter irritant, Radway's Ready Relief applied to the surface of the body, where the system is inflamed or congested, it will instantly scatter the congested blood, equalize the circulation, and in a few minutes the most excruciating pains are removed. This may be seen in cases of Lambo, Gout, and Rheumatism in their most terrible forms, where an application of Radway's Ready Relief will restore the patient to ease and comfort.

Crippled with Rheumatism, arm and leg paralyzed—no hopes of recovery—timely use of R. R. R.—A wonderful cure. LETTER FROM ISAAC HEDDLSTONE.

Rapids Parish, La. June 10th, 1855. Messrs. Radway & Co. I have used your Ready Relief for my Rheumatism, when there was no hopes of my ever recovering. I heard of your situation and sent for him. His right arm and leg was all paralyzed. He had been in bed for two months. He was carrying the mail from Cherryville to Barr's Ferry. I objected. He said he would do something for living. It was never before. He gave me your Ready Relief. He is now well and working on his farm, and the whole cost of his cure for your medicines was five dollars.

ISAAC HEDDLSTONE.

Radway's Regulators.

We here direct the attention of the public to our newly discovered remedy—RADWAY'S REGULATOR, they possess the power to cure all diseases of the system, such as Catarrh, Aneurism, Scurvy, Dyspepsia, Constipation, and all other diseases of the system. They are in fact the only perfect purgative and cathartic that has ever been discovered, and it is the only one that will give the patient a perfect and permanent cure. It is a better purgative than Calomel or Mercury, without entailing on the system the terrible injuries of these baneful drugs.

They are in the form of pills, elegantly coated with gum, perfectly tasteless, and can be taken without sickening or nauseating the patient. They are to be used in all cases where the system is out of order, or under the influence of any disease, or where the bowels are constipated. They will give the patient a perfect and permanent cure. It is a better purgative than Calomel or Mercury, without entailing on the system the terrible injuries of these baneful drugs.

SMALL POX—SCARLET FEVER—MEASLES.

Radway's Ready Relief is not only a cure for these infectious maladies, but will prevent those who use the Ready Relief and Regulators against the infection.

We have known the R. R. R. Relief rid the whole neighborhood of the infection of Small Pox and Scarlet Fever. We have known it know shipmasters who have saved the lives of their crews and passengers, and entirely rid even of the small Pox and Scarlet Fever from their vessels, by sprinkling the Ready Relief through their infected ships. It is astonishing how happy effects the Ready Relief will have if freely sprinkled in places where the infectious and contagious poisons prevail.

These now suffering from enlargements of the Spleen, Enlargements of the Liver, and other organic enlargements, are promised speedy relief from their miseries by the R. R. R. Relief and Regulators.

We now direct the attention of the public to our new and great discovery for the cure of chronic diseases.

No. 11.—R. R. RESOLVENT.

CHRONIC DISEASES.

Diseases like Rheumatism, Gout, and all the evils for a length of time, tainting the blood with impurities and covering the body with sores and ulcers; diseases inherited by hereditary descent, contracted by inoculation, or putrid exanthema, or those diseases of the blood, such as Scrophulous, Syphilis, and all other diseases and disorders in this second class.

RADWAY'S RESOLVENT RESOLVES Possesses the most positive curative powers. It is a powerful solvent, and has performed miracles in the way of cures. It has made many persons sound and whole, whose life was one mass of corruption, and who were so disfigured by disease as to render them objects of repulsion to the friends and neighbors.

CHRONIC DISEASES.

Chronic diseases, scrophulous and syphilitic complaints, consumption, and other affections of the lungs and throat, tubercular and cancerous diseases, chronic rheumatism, glandular swellings, hacking dry cough, cancerous affections, bleeding of the lungs, dyspepsia, water brash, the doler, white swelling tumors, skin diseases, female complaints, Gout, rheumatism, liver complaint, &c.

ALL RESOLVENT DISEASES.

The moment a dose of the Resolvent is taken into the system infected with disease, the patient experiences the most delightful sensations. For new life is coursing through every vein and tissue of the body—enticing and purifying the blood and casting out all morbid, corrupt and loathsome humors.

It is a powerful solvent, and has performed miracles in the way of cures. It has made many persons sound and whole, whose life was one mass of corruption, and who were so disfigured by disease as to render them objects of repulsion to the friends
